I was part of core team in Google Developer Student Club. I was on the sponsorship team

PROJECTS

01/01/2024 – 01/06/2024

Medicine Recommendation System with Python Django

We developed a drug recommendation system using the Python Django framework. Each user could register on our system with their personal

information (age, gender, weight, etc.) and receive recommendations for medications they could use based on their complaints, along with usage instructions.
